Minutes of the meeting held on 04.10.2018 at ERPC Kolkata on Augmentation of Coal Supply and its transportation to various Power Stations in the Eastern Region before Puja Festivals, 2018

The list of the participants are enclosed in **Annexure-I**

Sri M.K.Das, Director (Commercial), GRIDCO and Chairman, TCC chaired the meeting.

Shri J. Bandyopadhyay, Member Secretary, ERPC welcomed the esteemed delegates in the meeting. He informed that Hon'ble Minister-in-Charge, Department of Power and Non-Conventional Energy, Government of West Bengal, had taken a meeting on 25th August, 2018, wherein high level officials of Coal Companies and Railways had assured that all out efforts would be made to build up comfortable coal stock position before the ensuing Durga Puja festival. However, as on date, the coal stock position in the thermal power stations in the Eastern Region, particularly *NTPC stations i.e. FSTPS, TSTPS, Barh STPS, MTPS and some of the power stations of WBPDC and DVC have still super critical coal stock* which needed immediate improvement. ERPC has convened this meeting to have a review of the present coal stock position and to chalk out an action plan by the power station authorities in co-ordination with Coal companies and Railways so that maximum generation from thermal station is available and uninterrupted power supply is ensured during the Durga Puja festivals, 2018.

Member Secretary, ERPC thanked the officials of Coal companies (i.e. CIL, ECL), Railways and Power stations authorities for attending the meeting

He urged the Coal companies, Railways and thermal generating stations in Eastern Region to work in close co-ordination during the coming 10-15 days to build up adequate stock of coal in the power stations so that there is no shortage / interruption of power supply during the ensuing Puja festival.

Thereafter, the latest coal stock positions at different power plants of NTPC WBPDC, CESC, DPL, MPL DVC including IPPs were reviewed by GM(M&S), CIL and respective Power stations authorities. After threadbare discussion, the plan of rake dispatch of coal from different subsidiaries of CIL is furnished at **Annexure-II**

DVC representative opined that the quantum of BCCL 1.5 Rakes/day for Koderma TPS shall be diverted to DSTPS, Andal, to ease out the coal problem at DSTPS. CIL representative agreed the proposal.

With this arrangement, generating companies in West Bengal assured full generation availability during Durga Puja. WBPDC, DPL, NTPC, DVC, TVNL, CESC, HEL and MPL would maintain close co-ordination with Coal Companies and Railways for smooth availability of committed quantum of coal.

Railway officials present in the meeting assured availability of adequate rakes and smooth transportation of the same from source (pit head) to destination i.e. respective power stations.

Sri M.K.Das, Director (Commercial), GRIDCO mentioned that SEL, GMR, Vedanta is not in a position to generate adequately due to shortage of coal. Hence, the Hydel power Stations of OHPC has to generate round the clock (1500 MW) to meet the demand of Odisha. GM (M&S), CIL assured that he would look into the matter and resolve the issue at the earliest.

Member Secretary also emphasized that the present committed delivery schedule of coal supply by the Coal Companies should not in any way be at the expense of other generating companies.

CIL was requested to improve dispatches to NTPC stations in Eastern Region to ensure full availability of generation. CIL assured to make all possible efforts in this regard.

In his concluding remarks, Member Secretary urged the Coal Companies to ensure that the commitment made in the meeting are adhered to. He requested the Coal Companies to explore all possible avenues to raise the production level above the committed quantum to ease out the coal shortage problem in the Eastern Region.

The meeting ended with a vote of thanks to the Chair.
