As per list enclosed.

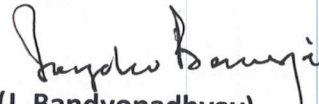

Sub: Notice for special meeting on "Issue of Coordination during Outage and Restoration of Transmission Lines Owned by Private Licensees"

In 158th OCC Meeting held on 27th June 2019, ERLDC informed that with the introduction of TBCB, multiple transmission utilities are constructing the transmission system. Other than Powergrid & Sterile, no other transmission licensee has any dedicated operational control room for coordination with ERLDC during tripping/shutdown or any other switching operations. Due to non-availability of dedicated control center, they are facing difficulty to coordinate with associated transmission licenses during tripping of lines in odd hours, which causes delay in restoration of transmission asset and collection of tripping related information.

In 159th OCC Meeting held on 19th July 2019, OCC decided to discuss the issue with all the transmission licensees in a separate meeting.

As per the OCC decision, a special meeting on "Issue of Coordination during Outage and Restoration of Transmission Lines Owned by Private Licensees" is here by convened at ERPC Conference Hall, Kolkata on 2nd August 2019 (Friday) at 15:00 hrs.

You are requested to attend the meeting with all relevant details for fruitful discussion in the meeting. Your participation in the meeting is highly solicited.
