ERPC :: KOLKATA

Minutes of Special Meeting held on 04.05.2023(Thursday) at 10:30 AM on Issues related to M/S Chemtrols.

Member Secretary, ERPC chaired the meeting and welcomed all the participants present in the meeting. List of participants is attached at **Annexure A**.

He informed the forum that resolutions for many significant issues from all utilities remain unresolved at M/s Chemtrols' end. This meeting had been called because these issues are critical to the SCADA and Communication System of the Eastern Region and need to be addressed.

Representatives from all utilities expressed their concerns that critical issues, such as cyber security audits, battery bank replacements, spares management (non-return of mandatory spares), integration of new RTU, extension of the SCADA AMC, OS updates, and non-functionality of ADMS, are still pending at M/s Chemtrols' end. Despite numerous communications with them, no progress has been made to date.

Member Secretary asked the utilities about the expiration date of the old contracts. He noted that for most of them, the old contract is set to terminate within the next 3-4 months. Therefore, the matter needs to be resolved as soon as possible to avoid impacting the functioning of the Eastern region's SCADA System.

After detailed deliberations the followings were decided:

- 1) Critical issues like cyber security audits, OS updates etc need to be carried out in timely manner without any fail.
- 2) The SCADA system's AMC contract needs to be extended before the expiry of existing contract keeping in mind the criticality of the SCADA and Communication System for smooth functioning and reliability of the grid.
- 3) All utilities are advised to have bilateral discussions with M/s Chemtrols to resolve the issues at the earliest because the contract has been signed individually with the vendor.
- 4) Legal consultation may be made by the respective utilities for further clarification and resolution of the contract with M/s Chemtrols as they deem fit.

Meeting ended with a vote of thanks.

Participants in the Special Meeting to discuss issues related to M/s Chemtrols
